Doug, Deb and Megan -

Please see the attached Planned Inspections Report for October. I wanted to call your attention to 19 U&O Multi-media "OWDF" inspections. Our air, NPDES and RCRA inspectors will be visiting 19 Oilfield Waste Disposal Facilities (OWDFs) on the U&O Reservation at the end of October. These tend to be very large facilities where the disposal method is evaporation. Some of these facilities also accept hydrocarbon-contaminated soils which are 'land farmed'.

Deliberative Process / Ex. 5

Surrounding states (UT, WY, CO) issue air permits that require emission reductions for these types of facilities. We will be gathering information to determine compliance status. We have invited the Ute Tribe to accompany us during these inspections.

Please let me know if you have any questions.

Thanks,
Suzanne
